

Fast Facts: Six Year Success Rates

New entering students from fall semesters 2006 to 2010 were examined for graduation and transfer rates as well as students still enrolled at the college for a six year period after their enrollment at the college. The past five graduating classes' six year success rates ranged from 45.1% to 51% of the new freshmen entering classes.

Students who graduate from HCC range from 15.5% to 16.6% of new students. Students on record as transferring to a 4-year college range from 24.7% to 28% of the freshmen class and students still enrolled at six year range from 3.2% to 7.4% of the freshmen class.
