

An Optimus Health Care and  
Housatonic Community College Collaboration

**At Optimus Health Care, we believe everyone deserves access to compassionate and quality primary medical, dental, and behavioral health care services**

---

Optimus Health Care is a Federally Qualified Health Center whose mission is to provide primary medical, dental and behavioral health care and social services to all, particularly to those who cannot gain access to such services elsewhere.

**COMMITTED TO SERVING THE COMMUNITY**

As a Federally Qualified Health Center, Optimus Health Care programs are available to all, regardless of one's ability to pay. Optimus Health Care accepts all insurance, including Medicaid. We also offer a sliding fee discount for individuals without insurance coverage. As one of southwestern Connecticut's largest health care providers, Optimus Health Care is committed to keeping our patients and our communities healthy.

**COLLABORATION BEYOND TRADITIONAL CARE**

Optimus Health Care is a Patient Centered Medical Home (PCMH). As a PCMH, we incorporate prevention and health promotion, treatment of illnesses, and management of chronic disease – often all during the same visit. Using collaborative and innovative service delivery models and state of the art technology, Optimus Health Care goes beyond traditional health services to bring care to the places it is most needed, and is most impactful, such as Housatonic Community College.

Optimus Health Care is accepting new patients and looks forward to providing you the care you need when you need it.
